PTC Israel is looking for SW students to join our Research & Development team in Haifa. As part of our team you will be working on 3D modelling software that helps Engineers to design the next generation of physical products. Join us and you will take a part in development of our world leading CAD product.

Job Requirements:

• Completed Second year of B.Sc. in Computer Science
• Good knowledge of C/C++ programming
• Average 80 or higher

Kindly send your CV+ grade sheet to: ptc.47.701@applynow.io
