

MSC and PHD Graduate

Toga Networks is a Huawei Research Center in Israel focusing on research and development of innovative concepts and future technologies. The technical teams include lead industry experts in various fields.

The Cloud Storage research group is responsible for the storage-class memory based lowest latency services, writing innovative distributed software that leverages RDMA, persistent memory, data structures etc.

We are looking for outstanding folks, who recently completed or about to complete their Msc or PhD in the fields of: Electrical Engineering or Computer Science.

The position involves generation of novel ideas in the above fields, invention and design of new methods to advance the state-of-art. A strong background in programming is important.

Please send your cv to: [Liron.hamamy@huawei.com](mailto:Liron.hamamy@huawei.com) AND [jobs@toganetworks.com](mailto:jobs@toganetworks.com)

Thank you!
