

JR1978011 Software Student - [CAREERS AT NVIDIA \(myworkdayjobs.com\)](https://myworkdayjobs.com/CAREERS_AT_NVIDIA)

Job Description

Want to get your hands-on NVIDIA's cutting-edge networking technologies? Our group is looking for a talented student to join us in developing the next-generation state-of-the-art switch & GPU products. Working with the Industry leaders in Data Centers, High-Performance Computing, Storage Platforms and more.

What you will be doing:

- Develop NVIDIA's next generation network products firmware verification.
- Take part in sophisticated networking firmware verification features development for AI, Cloud, Data center and supercomputers.
- Innovate! Bring NVIDIA's FW switching products to shine in customer's view.

What we need to see:

- Outstanding student pursuing B.Sc. in Computer Science/Computer/Electrical Engineering.
- Strong analytical, creative, debugging, and problem-solving skills.
- OOP Knowledge (C++ and Python).
- A teammate with a can-do attitude, and excellent interpersonal skills.

Ways to stand out from the crowd:

- Knowledge of Networking protocols.
- Familiarity with Linux.
- Hands-on experience with Modern C++ .

NVIDIA is widely considered to be one of the technology world's most desirable employers. We have some of the most forward-thinking and hardworking people on the planet working for us. If you're creative and autonomous, we want to hear from you! NVIDIA is committed to fostering a diverse work environment and is proud to be an equal opportunity employer. As we highly value diversity in our current and future employees, we do not discriminate (including in our hiring and promotion practices) on the basis of race, religion, color, national origin, gender, gender expression, sexual orientation, age, marital status, veteran status, disability status or any other characteristic protected by law. In 2020, NVIDIA acquired Mellanox, a leading supplier of end-to-end Ethernet and InfiniBand intelligent interconnect solutions and services for servers, storage, and hyper-converged infrastructure. Mellanox intelligent interconnect solutions increase data center efficiency by providing the highest throughput and lowest latency, delivering data faster to applications and unlocking system performance. We will ensure that individuals with disabilities are provided reasonable accommodation to participate in the job application or interview process, to perform essential job functions, and to receive other benefits and privileges of employment. Please contact us to request accommodation
