

Tiberius Support Services, located in Tel Aviv, is a company setup by highly experienced team members with years of experience. The company provides services to both public and private sectors, in cooperation with companies and Government authorities in the Middle east and the Gulf Area.

Our exclusive global services offer consistent high-end development, maintenance and support levels across single or multi-vendor technology environments.

This unique capability is available 24/7/365 with specialist expertise on hand to address customer issues and achieve a range of SLAs.

If you are a strong & ambitious **CS** student (4th year Bachelor), Masters' student or graduated in the last 5 years, we would love to offer you an opportunity to join our creative team in Tel Aviv, for part time or full-time position, working 4.5 days a week with **attractive benefits**.

For students: selected candidates, based on a criterion which includes grade's average, interview & professional achievements, might get the opportunity to be offered a post-graduation full time position.

Apply now for various roles in the fields of **AI, Cyber, Cloud Technology, Digital transformation** and more.

If you wish to learn a lot and built your career path in the most professional way, if you have the desire to be with people who are experienced and nice to work with and if you have a **grade's average of 90 and above** - come to Tiberius!!!
